OFFICE OF THE PRESIDENT

The Staff of the 1927 Athena is to be commended on the uniformly high character of the book. I am happy to express the warm appreciation of the University for this full and faithful portrayal of the many and varied activities of the current year. To all readers of this volume the University administration extends cordial greetings.

HE Department of Biology has been a separate department since 1890. It was under the leadership of Professor Chapin until 1900, when it was taken over by Dr. William F. Mercer, who continues at its head.

When the department was organized the school was small and had meager funds, as a consequence it had a slow growth for several years. As the college increased in numbers of students, funds were supplied for the normal growth of the department until, at present, more than six hundred students receive instruction in the subjects offered each year Year after year equipment and teaching force have been added until the department is well supplied with both for the courses offered. A new laboratory in Physiology has been operating for the past two years under the direction of Assistant Professor Emmett Rowles. This year a laboratory for Anatomy has been added and is under the direction of Assistant Professor Rush Elliott.

Bacteriology is under the direction of Instructor Carl A. Frey. The special field of the head of the department is Histology and Embryology and Neurology.

All the men referred to above have done and are doing special graduate work in their lines. Mr. Rowles did graduate work in the University of Minnesota. Mr. Elliott. in Cornell University. University of Michigan, and Ohio State University. Mr. Frey. in Cornell University and Ohio State University.

There are now more than one hundred Pre-Medic students and a large number of students looking forward to graduate work in other lines of Biology, as well as the large number of students in general subjects of Biology.

Department of Chemistry

HE Department of Chemistry became a separate organization in 1894 when Dr. Walker Bowman became professor of Chemistry He served until November. 1896, when he was succeeded by Dr. Irving W. Fay, who resigned at the end of the college year Dr. W. E. Henderson filled the chair for two years and Dr J. P Sylvester for one. W. B. Bentley has had charge of the department since the fall of 1900.

E. L. Bailes and C. R. Cooper are serving their second year as assistants. They received the degree of A. B. in 1926

NEIL DUNCAN THOMAS B S Assistant Professor of Civil Engineering B S Obio University 1922

HE Department of Civil Engineering was organized at Ohio University by its present head, in the fall of 1904. For the greater part of the time, since then, it occupied the rooms in East Wing. In January of 1925, it was moved to its present commodious quarters in Super Hall, the new Engineering Building.

The Department has always attempted to offer such courses as will best fit men for the practical field of engineering and has kept the equipment up to date, and complete for all courses offered. Such additional courses and equipment will be added from time to time as the needs of the Department may require.

HE Department of Classical Languages and Literatures was formed in 1921 by a combination of the Department of Greek and Latin which had previously been maintained separately. Professor Hill came to the University in 1920 as Professor of Greek. The combination of the two departments was effected during the following year and Professor Scott was added to the teaching staff.

The Dafydd J. Evans Prize is awarded annually for merit in this Department.

RT is self expression: writing is self expression: music is self expression. Anyone wishing to express himself by any of these mediums must learn that language. A teacher can teach the language and inspire the student, but only God can make an artist, a poet, a musician.

This Department seeks to teach the language of art, and to teach appreciation of works of art by the use of numerous reproductions. Also it has each year a loan exhibition of original works by noted artists.

Art has arrived in America. An amazing number of artists are producing interesting works. Men of wealth are giving their millions to buy these works and to build museums: colleges are requiring the study, since those who are not wise enough to choose must have it thrust upon them for their own food.

Elie Faure, a noted French art historian, says: "If I wish to know anything about a people, past or present, I study their art." We study it then from the historical point of view. This involves not only the effect but the cause. We study it from the aesthetic, that we may appreciate and enjoy: from the practical, that we may have the trained eye and hand to express ourselves.

Art is involved with every phase of the life of men—with his religion, not merely because the artist chooses a subject from the Bible or story, but because art expresses the spiritual state of man. It is involved with his everyday life and with his love of nature.

If you are not in the procession you are behind the times. Art has arrived in America.

OMF-HOW that amazing creature. The Public, has the belief that a college graduate ought to know how to speak and write his native language, since that's the language he is likely to use more than any other, and that by taking a course in English Composition he'll attain clearness and fluency in his mother tongue—"Tis a consummation devoutly to be wished." So all Freshmen take English Composition, and all instructors in English groan and sweat,—falling back again on Mr. Shakespeare.—as they patiently "red ink" the "disjecta membra." the mangled fragments, strewn thick as the old-named leaves of Vallombrosa on the pages of Freshmen themes

So when the sad instructor is the saddest and the maddest and falls into his most pessimistic mood, he cries with Omar:

With them the seed of wisdom did I sow.

And with my own hands wrought to make it grow.

And this was all the Harvest that I reaped.—

T ain t learned nothing what I d ought to know.

But that's when our instructor is dyspeptic. In his gaver hours he rejoices in the choice spirits who choose his electives, those sweet-scented, light-giving courses that exhale sweetness and radiate light; courses that are as attractive to the saving remnant as the honexuckle is to the bee and the flame to the moth. These courses range from Chaucer to Robert Frost, from Shakespeare to Shaw, from Fielding to Galsworthy. Those courses are given by the dignitaries whose sonorous names embellish the top of this page. They're more human than those ponderous degrees would indicate.

CONOMICS was offered at Ohio University under the direction of an independent department for the first time in 1916. Previously elementary courses in Political Economy had been given by the Department of History, later a single department, which was responsible for giving instruction in both Economics and Sociology, was constituted, but for the last three years these two subjects have been offered by separate departments.

Professional courses in commerce emphasize the individual point of view in an examination of problems of business. Economics examines them from the public point of view. The latest assumption is to promote economic welfare. The department aims to acquit students with Methods of Economic Analysis and with such information about the economic organization as every good citizen should have.

Department of German

MAUDE C. MATTHEWS, A. M. Associate Professor of German A. B. Ohio University 1917 A. M. University of Chicago, 1920

N the German Department thirty-two hours of college work are now being offered. After two years of elementary and intermediate German, a course in the Survey of German Literature may be taken as a basis for later excursions into various rich fields; or if the student's interest lies chiefly in some branch of science, he may take a course in Scientific German as a fit preparation for later research.

A German Club has been organized. At the meetings this year German is being spoken. German games played. German music heard. German current events related, and short German dialogues of excerpts from longer German plays are being presented. Any student is eligible to this club who has completed at least one year of German and has graded A or B. The club meets the third Thursday of each month at the home of Mrs. Matthews.

R. W. C. HARRIS and his assistant. Professor E. J. Jones. have thought it wise to have their students better informed as to ancient prospective and especially the modern European conditions. As a result, the Department of History has placed special stress on the study of European History, leaving the discussion and study of American History entirely to the History Department in the College of Education.

"We cannot understand the problems of America as a World Power without first being acquainted with the background in European History."

Therefore, as an aid to a better understanding and more comprebensive citizenship, the study of European History is encouraged

NIQUE in the training of newspaper workers is the laboratory experience now available to students of Journalism at Ohio University. As the result of a plan worked out by Professor George Starr Lasher, head of the Department of Journalism, and Mr. F. W. Bush, publisher of The Athens Messenger, students who do satisfactory work in classroom courses in news writing and editing, may elect laboratory courses in which they will do regular reporting and copy reading on The Athens Messenger, under the direction of Wesley H. Maurer, who is assistant professor of Journalism and City Editor of The Messenger. The city room in the fine new building of The Messenger has been equipped to take care of the student reporters and editors. This gives Ohio University what is generally regarded by newspapermen and teachers of journalism as ideal opportunities for the training of young men and women who desire to enter the newspaper or the publicity field.

The past year the journalism curriculum has been increased decidedly Besides the laboratory work, courses are offered in reporting, editing, feature and magazine writing, the writing of criticism, high school journalism, the editorial page, the community newspaper, newspaper problems and the newspaper as a social institution.

 Ph. D., University of Virginia, 1907

R. R. L. BORGER came to Ohio University nine years ago as the head of one of the oldest as well as one of the strongest and most important departments—the Department of Mathematics. Dr. William Hoover had occupied the position the twenty-five

preceding years.

Some of the courses offered by this department are: Trigonometry. Analytic Mechanics. Mathematics of Finance, and a number of other courses. In the past few years, very helpful and instructive courses have been offered by this department in theoretical and practical astronomy.

Department of Philosophy

WALTER SYLVESTER GAMERISFILDER, Ph. D. Professor of Philosophy and Ethics A. B., Northwestern, 1910
B. D. Evangelical Theological Seminary, 1912
Ph. D. Ohio State University, 1920

o some, philosophy is what Plato called "that dead delight." and intellectual joy forever: to others, it is the soul's sincere quest for an answer to the imperious problems of life; and to still others it is the persistent effort to overcome the fragmentary character of our specialized forms of knowledge by a co-ordination of all

forms of experience.

Following the argument where it leads in any of the specialized fields of knowledge is certain, sooner or later, to carry the inquirer back to the assumptions and presuppositions of his thinking. The problems which lie at the roots of experience are to be examined if candor and the spirit of science are to be respected. Questions about the nature of mind and the conditions of sound thinking: man, his place in nature and the significance of cultural values: the meaning of the working concepts of the sciences, e. g., matter, force, energy, life, cause and effect, freedom and necessity, evolution, change and permanence, fact and law, appearance and reality; good and evil, and God.—such are a few of the problems of philosophy. To seek an answer to these questions inductively and by a synthetic interpretation of all experience.—to see life and the world whole, this is the never ending task of philosophy. The presumption implied in this gigantic undertaking is exceeded only by the assumption that man can carry on civilization without philosophy.

The courses which have been added recently are American Philosophy, Comparative Religions, and Business and Professional Ethics.

ROM the beginning of the emphasis on the subject of Physics, back in the eighties, under Professor Karl I eo Mees, when it was still united with Chemistry and Biology in a single department, and continuing under Professor W. M. Stine, who began to place more emphasis on Electrical Engineering, and under whom was graduated the first class in engineering, in 1891, on through the incumbency thus far of Professor A. A. Atkinson, who took charge in 1893, at which time it became a separate department, the Department of Physics and Electrical Engineering has enjoyed a growth in equipment, in enrollment, and in importance as a college department commensurate with the expansion of the Ohio University itself

Student enrollment in Electrical Engineering, not to mention Physics, increased 30% in 1925-26 over the previous year, and in 1926-27 the growth was further increased 33% over 1925-26, while the increase in the general enrollment in all departments was 10%. Likewise the facilities for conducting the various phases of the work have improved, especially when, a few years ago, Science Hall was erected, and still more recently, in the occupancy of Super Hall with its special facilities adapted to department requirements. One-half a floor is retained also in Science Hall for engineering laboratories, where old equipment has been reset on adequate concrete foundations, and much new machinery added

The purchase of around \$10,000 worth of new machinery and apparatus within the last biennium will indicate something of the growth in equipment. This purchase includes several different types of motorgenerators, phase convertors, transformers, rotary convertor, sine wave generator, meter testing board and full equipment, oscillograph, direct reading spectrometer with photographic attachment, polyphase wattmeter, watt-ammeter, radio motor-generator set. Faby permeameter, power factor meter, frequency indicator, and other equipment of ma-

chinery and apparatus of smaller sizes.

The course has been entirely revised, amplified, and raised in standard, so that it is fully comparable with the best of the state institutions in the United States, and should make an appeal to young men of high character and seriousness of purpose who think of Electrical Engineering as a profession, and to those desiring to pursue Physics as a major course of study.

forms of expression, ordinary public speaking, oral interpretation of literature, the drama, and the debate. In each of these branches, actual platform practice is afforded as a part of the classroom work, in the public presentation of standard plays in the University auditorium, and in the intercollegiate debates with such institutions as Miami University. Denison University, and the University of The Intramural debates last year included eight of the strongest social fraternities on the campus. The plays presented last year were Shakespeare's "Much Ado About Nothing." Barrie's "Passing of the Third Floor Back." Emerson's "The Whole Town's Talking." and Kelly's "The Show-Off." The Department holds active membership in Tau Kappa Alpha, a national honorary debating fraternity, The National Collegiate Players, and Phi Delta Gamma, a national forensic fraternity.

HE Department of Romance Languages is one of the oldest of Ohio University Besides giving training in the elements of the three great languages. French, Spanish, and Italian, the Department offers a number of advanced courses giving the student an opportunity to acquaint himself with these great literatures. The Department aims to instruct students so that they may read and enjoy the literature of each language, translate it easily, and be able to use the language as a medium of communication. In this day of Internationalism a knowledge of foreign languages is an asset not to be lightly treated. To do further study in the arts, sciences, medicine, history, and Comparative Literature, ability to read the Romance Languages is not only to be desired but is essential. The Department endeavors to prepare students in the idioms so that they may adapt them to their own immediate needs.

HE School of Commerce now offers two degree courses. One course leads to the degree, Bachelor of Arts in Commerce, and the other to the degree, Bachelor of Secretarial Science. About one-half of each course is made up of studies in Commerce and Economics, and the remainder is made up of studies usually denominated cultural. The major lines of instruction are Accounting. Advertising, Finance, Marketing, and Secretarial Studies. The offerings of the other departments of the University are open to students in Commerce. The courses in Commerce require studies from the Departments of English. Foreign Language, Economics, Logic, Physical Education, and Psychology. Commerce students elect studies in practically all the departments of the University. An increasing number of students from the College of Education are majoring in Commerce.

The present Senior Class has thirty-one members who will receive the A. B. in Commerce degree.

Graduates from Ohio University with the Commerce degree give a good account of themselves in the various graduate schools of the country, and also in the business positions in which they are employed

LONG with the phenomenal growth of the University in recent years, the School of Music has kept pace in all phases of its activities. Valuable additions to the faculty have been made from time to time, together with a considerable increase in equipment to accommodate the steady increase of students.

The student organizations are all functioning under able leadership. The prospects for further service of high order are enhanced by the prospects of occupying the new building assigned to the School of Music in September.

Indicative of the growth is the fact that while in 1922 there were three students majoring toward the Bachelor of Music degree, there are now twenty-four pursuing the same course. Comparative figures of those students taking music as an elective, and as required work from the College of Education show nearly the same percentage of growth. During the present academic year a careful survey indicates that over five hundred are engaged in some form of activity under the direction of the School of Music.

T the opening of the present school year the possibilities for work in the Agriculture Department were enlarged in two important particulars. Over two thousand square feet of floor space were added to the present greenhouse. The total floor space is now divided into three sections, thus making it possible to con-

duct experiments and to grow plants under a greater variety of conditions. Mr. E. R. Wallace has been employed to co-operate with county and village schools and farmers in making this department of Ohio University of more service to those interested in agricultural problems.

HE Art Department of the College of Education offers fundamental courses for students who wish to become art supervisors, designers, commercial illustrators, or artists. There are also courses offered for those who wish to specialize in costume design or house decoration. Former graduates are now filling positions as art supervisors in cities and art instructors in universities and colleges in Ohio and neighboring states. Many students come as upper classmen from other states and other schools in Ohio to take advantage of the art course offered at Ohio University.

THE Department of Civic Biology and Botany is similar to the Department of Biology in the College of Liberal Arts, except that it treats its subjects from a more economic and agricultural standpoint.

This department developed from the Department of Elementary

Science with its present head, Dr. W. A. Matheny, as its director

At first the courses offered had to do mainly with Botany. Now. however, they include courses in Civic Biology. Zoology. House Economics, Biology, Ecology, and Household Biology.

HE Department of Education offers professional courses which are to the prospective teacher what professional courses in law and medicine are to students of law or medicine. These courses include work in the history, principles, and administration of education, including laboratory work in student teaching and observation Specialized courses are offered relating to the work of various types of schools, e. g., kindergarten, elementary schools both city and rural, special schools, and the junior and senior high schools

Teacher Training

HE Department of Teacher Training, at the time of its organization, provided for Observation and Student Teaching in grades 1 to 8 of the Training School under the direction of critic teachers. In the past few years a co-operative plan between Ohio University and the public schools of the city of Athens has been worked out so that at present many of the classrooms throughout the city are teacher-training situations.

In September, 1926, the department moved into its new quarters in Rufus Putnam Hall, on East Union Street. This hall was especially designed to serve as a center for the teacher-training activities of Ohio

University. It was erected at a cost of \$200.000.

HE School of Kindergarten Education was opened September. 1907. Eighteen children were enrolled in the Kindergarten and a Mothers' Club was organized. The training of teachers began the following year with ten students. Today there are sixty-

one freshmen, thirty-six sophomores, eight juniors, five seniors, majoring in the department, and two kindergartens with an enrollment of sixty-four children.

The course in Kindergarten Education has been combined with the course in Primary Education, the students doing work in both fields. The Mothers' Club has become a part of the Parent-Teacher Association of the Rufus Putnam Training School.

This year the department occupies exceptionally fine quarters in the new training school. Rufus Putnam Hall. Mr. Ray Latham is Principal

of the training school and Director of Teacher Training.

An important feature of the Kindergarten Department is the Kindergarten Club. a social and educational organization. Meetings are held once a month.

The present head of the department is Miss LaVinia Warner, an expert in the care and education of unusual children and has been on the Ohio University Faculty as its head since its organization.

The purpose is to extend the opportunity of University training to those students who are widely scattered, and who find it necessary to be employed part of the time. In the year 1910-11, only seventy-nine students were working in this manner: in 1925-26, the number had grown to more than 900. Classes are organized in various centers in twenty-two counties of southeastern Ohio. Twenty students are required in each class. Two professors give their entire time to teaching these classes, and a number of the members of the Faculty make one trip away from the campus each week for such work.

In 1924, the Division of Correspondence Study was organized. In the first year, fifteen members of the Faculty taught by mail more than 200 students who live in sixty counties of Ohio and in six other states. The interest in this type of University work was so great that opportunities were increased the second year, with the result that at this writing there are more than 450 students pursuing home study courses under the instruction of thirty-three members of the faculty. Among students are residents of 73 counties of Ohio, eight other states of the United States and one foreign country

About one-fourth of any four-year course offered by the University may be done in University Extension Classes and Correspondence Courses.

ROFESSOR C. E. COOPER became head of the department in the fall of 1922, when it was reorganized and at the same time Mr. Albert LaFleur became the assistant. Mr. LaFleur resigned in 1926 and was succeeded by Miss Atwood.

The department has had from its beginning a threefold aim: first to offer work which will adequately equip the prospective teachers with a knowledge of geography: second, to cause work in geography to be a legal substitute for the science requirement in the College of Liberal Arts: and third, to afford the opportunity for full development of special teachers in geography. A still further aim is to correlate many of the courses with the work in the school of commerce.

The department sponsors a club. "The Melting Pot." which has as its purpose the bringing together of students who are especially interested in the field of geography.

The training given is varied as it is broad. It includes a knowledge of the laws of health, an understanding of the sanitary requirements of the home, the study of values both absolute and relative, of the various articles used in the home; the wise expenditure of money time, and energy, the scientific principles of food selection and preparation; adaptation of the principles of art in the costume and in the home; the right zare of children; and the ability to secure efficient service from others

HF Industrial Education Department is enjoying its full share of the increased enrollment and general prosperity of the present year at Ohio University. The various shops are a veritable bee-bive of industry throughout the day.

We find the new quarters with its large, light, and airy rooms admirably suited to the need of the work. New courses being offered this year include sheet metal work and home mechanics, and for next year the department hopes to be able to offer courses in printing. Industrial Arts work is becoming more and more a work dealing with a number of tool operations and materials, and a body of information concerning these materials and tools, rather than the former idea, which meant wood-work only.

There is an increased demand for well prepared and thoroughly qualified teachers for this type of public school work.

HE present plan of organization of the Department of Mathematics has been in effect since 1921. In these six years, each course has been completely reorganized; the titles of most of them have been changed. Three new textbooks have been produced and used in mimeographed form. One of these, Teaching Arithmetic in the Intermediate Grades, was published in March, 1927. Another. Teaching Arithmetic in the Primary Grades. will appear about June 1. The third. Laboratory Exercises in Educational Statistics. will probably be published in the fall of 1927. Other texts are in preparation.

HE Department of Physical Education began the year with about two hundred enrolled in its professional course. This means that about ten percent of the entire enrollment of the University are majoring in Physical Education. With this increased enrollment comes an increase in staff and physical equipment. The demand for Ohio University trained men and women is steadily increasing and is keeping pace with the large increase in enrollment.

The Sophomore requirement in physical education went into effect this year. This requirement has about doubled the number of students taking general physical exercise. It gives the department a much better opportunity to be of real service to the great number who are handicapped through minor or major physical defects

During the past year the intramural program was enlarged upon A larger percent than ever before availed themselves of the opportunity for exercise and recreation and participated in some form of intramural activity.

Intercollegiate athletics as a part of our physical education program should be mentioned in this article. Athletics have a very definite place in our educational system and therefore should not be considered as an activity apart from the general education program. During the present year our teams have shown improvement not only in the percentage column, but also from the standpoint of better sportsmanship on the part of our athletics and student body.

HEN Psychology was first introduced into the curriculum at Ohio University, it was taught by the president of the college. However, the growth of the institution soon made the continuance of such a plan practically impossible. Therefore, in 1886, Dr.

John P. Gordon was given the Professorship of Philosophy and Ethics.

This arrangement was followed until the year 1905, when the Department of Psychology was combined with the newly organized Department of Paidology under the direction of Dr. Chrisman. But, in 1922 the two departments were separated and Dr. James P. Porter became head of the Psychology Department.

The department has grown to such an extent that Dr. Porter has as his assistants. Prof. J. R. Gentry, A. C. Anderson, H. P. Longstaff, Dr. Worcester, and Dr. Fenton.

Miss Garber succeeded Mrs. Eugenia Lisont Jones as head of the department in the year of 1919. In the second semester of the year 1921-22 Miss Augusta Goddard became an Instructor in the Department. Then in the fall of 1922, after the resignation of Mrs. Mardis. Miss Elizabeth Earbart was appointed to fill the position, but was herself succeeded by Miss Elizabeth Garber.

At present the department offers two courses: a two-year Diploma Course for Supervisors of Music, and a longer and more complete four-year course leading to a Bachelor of Music Degree.

OCIOLOGY was first taught at Ohio University as one of the subjects in the Department of Philosophy. It remained in this department until 1920, when, combined with Economics, it formed a separate department called Economics and Sociology.

In 1923 this department was divided and Economics was placed in the College of Liberal Arts while Sociology remained in Education.

In 1924, Mr. W. R. Snavely was employed as assistant in Sociology, but he remained only until 1925, and was then followed by H. J. Jeddeloh.

A total of twenty-one courses are offered in the department which include. General Sociology, Rural Sociology, Educational Sociology, and Social Technology.

The total enrollment for the first semester 1926-27 was 333.

In May, 1923, the department was granted a charter for the organization of a chapter in the National Sociology Honor Society of Alpha Kappa Delta.

History of the Senior Class

N the autumn of 1923 some six hundred young men and women expressed their interest in higher education by registering in Ohio University. They constituted the largest freshman class that had ever entered the University up to that time. The members of that motley group who were fortunate enough to continue their scholastic careers at Ohio University constitute the present graduating class. The present senior class has the distinction of being the largest class graduated here during the entire history of the University.

At the opening of the freshman year Hewitt Matthews was chosen president of the class: after the death of Mr. Matthews, Esther Nause assumed the duties incumbent upon the leader of the class.

The sophomore year was characterized by careful organization and much success. A strenuous effort was made to establish some records and precedents for the class. Under the careful leadership of Dudley Foster, the class organized and carried out the first Sophomore Hop ever given on the campus of Ohio University. It was during this same year that the Sophomores combined to give the Freshmen the first defeat for several years in the annual Tug-of-War.

At the opening of the junior year about three hundred of the class returned to resume their activities at Ohio University. Hubert Huddle was chosen President. Upon Mr. Huddle's leaving school at the end of the first semester. Dayton Wise, who had been chosen Vice President, assumed the leadership of the class until the opening of the present school year.

Soon after the opening of the present year, the class assembled and elected William Rochester to be President during the last year of its existence at Ohio University. A meeting was called very soon after the new President assumed his duties. The chairmen of the standing committees were appointed: a very careful organization was effected to realize certain objectives for the class.

The six hundred that came to the Hocking Valley in 1923 were beginning their march to the strains of a new air. Fortunately for us and for society not all of the six hundred have fallen by the wavside. Some were unable to cope adequately with the problems of scholastic life. But for its security and protection the State looks to those who have not only found the fundamental problems of life but have also acted in the face of these problems so as to realize the greatest good for which man is capable. May the members of the class of '27 never shirk the responsibilities which they have assumed during their four years' residence within the portals of their Alma Mater.

The Crystal's Tale of the Class of 1928

T was midnight. In the center of a large group of her fellow-workers, stood an aged gypsy, her watchful eyes intent upon the varying colors of her crystal.

As the colors changed to green and white, she mystically

began to repeat the tale that was there revealed to her.

"In the year nineteen hundred and twenty-four there came to the portals of Ohio University a class to begin its career in that institution by beginning as every one does, even the dignified Seniors, as Freshmen.

"I see the upper classmen making fun of the new members of the school of knowledge, and now and then I see a rebellion led by the wrathful youths of the first year class. I also see many persons wearing green headgears, taking a plunge in the depths of the hospital lakes. But all in all the colors show the class of eight hundred members completing a successful year under the able leadership of Frank Howard, from Cleveland.

"The name of Joe Pitts stands as the leader of the group for the next year." continued the crystal reader. "During this time the colors show many bright spots. A large number of the men appear on the varsity football, basketball, and baseball squads, as well as in track.

"The girls are sharing in the beauty honors of the Silver Mirror. To insure a good scholastic standing for the class. Scarabaeus, a Sophomore Honor Society, is being organized. It has promises of a future of benefits to its members.

"Coming as a grand climax to the two successful and enthusiastic years. I see the Sophomore Hop being held at the armory.

(The colors in the crystal are suddenly intensely bright, as the foreteller of fate with a knowing nod of her head, concludes her story,)

"I see a class of ambitious men and women entering upon their third year of varying activities. The Junior Class as a group is under the guidance of four class officers which were chosen early in the year. They are Jack Robeson. Danville. President: Gene Tilton. Hamilton. Vice President; Walter Forrest, Cleveland. Secretary: John McCracken, Bellefontaine. Treasurer.

"As far as I can foretell," says the gypsy, "the class is well represented in every desirable adventure on the campus.

"As the crystal is slowly stopping in its mystical turns, I see a Junior Prom in evidence under the supervision of the social committee, consisting of Ray Davis, Sereno Shafer, and Walter Wagner.

"I see in the dying colors of the crystal ball a bright, happy, and enthusiastic Senior year for the members of the class of '28," concluded the gypsy woman as she mysteriously disappeared into space.

History of the Sophomore Class

ROM the highways and byways we gathered, we, the Sophomore Class, the class of '29. Shall we ever forget that feeling, that peculiar quickening of the heart as we climbed slowly down from the train. To the right of us, to the left of us, everywhere, fellows and girls were shaking hands and an interchange of kisses.

"Glad to see you back. Jack."

"Well, old roomie, djaget my last letter? Sure, had a peach of a summer. How many times? Well, had a big one the night I left. Sworn off though until Christmas. She did? She would, she's just the type."

"Hi. Don. here's my thumb and four to go with it. Kid. Many of the gang get in yet? Little early. My God, I never saw so many freshmen at one time in all my life. And Green! Say, boy, they are so green they think Rex Beach is a summer resort. Oh, well, the first thousand years is the hardest. Sure. I wrote to him, the bum."

And we were green. Dazedly we wandered over the town; found a room; and helplessly registered for five eight o'clocks. Then came mysterious upper classmen who whispered confidentially to some of the

fellows and without giving them much chance to answer, whisked them off in waiting cars. We saw them the next day, proudly displaying curious little pins on their lapels. Life was full to overflowing for them; theirs a life of a king—until after the first week.

We filed miserably into the auditorium and heard President Bryan greet the student body. How we longed for home! Our little bubble was being slowly pricked: all our wonderful pictures of what college was like began to fade away.

Then one day we elected officers John Algeo was voted president. A fine fellow, Johnny. We were to discover that he was capable of better things the following year.

Days and weeks passed quickly. We settled down to the routine of classes. Came initiation time. The Neophytes became actives and life looked rosier. Then came our run-in with the Sophomores and we, like white swans, gracefully were flung into the muddy, cold water of the lake. Our greatest peril was over: we took life easy until the week prior to final examinations. The midnight oil burned, notebooks changed hands, and lo! our first year of college was over.

Back we came the next September, anxious to get back. We greeted old friends and commented on what a green freshman class had entered school. Boy, were they green! Why, they were so green—.

What a relief. Now to enjoy a nine months' vacation after working hard all summer. We watched the pledging of new freshmen. Cocky at first, that ailment was quickly eradicated. Life was good.

After the two upper classes had elected officers, the Sophomore Class was quickly marshalled and we elected Dave Todd, that busy, hard-to-find man of affairs, as president. Glen Ettinger, the boy who glories in aiding preps find their summons, was made vice president. Glenn Smith the six-foot basketball player was elected Secretary. The honor of Treasurer was conferred on little Joe Dando, and who later made the B. A. A All-star football team. Joe also sings on the Male Varsity Quartette.

With such efficient officers the Sophomore Class did big things. The freshmen were successfully taken care of and there now but remains for us to accomplish even bigger things next year as Juniors. The largest class to ever enter Ohio University, it is for us to carry on its traditions. Here's to the class of '29'.

Class of 1930

WALLACL JOHNSON President

JAMES BERRY Vice President

PAULINE JONES Secretary

CLAYTON KLINE Treasurer

ITHOUT doubt the greatest class that ever entered this grand old institution is the class of 1930. This group, composed of eight hundred and two freshmen from far and near, entered the portals of Ohio University September 23, 1926.

On the threat of being thrown into the lake by the upper classmen the boys were compelled to wear Freshmen "dinks" and the girls green arm bands.

We first made a name for ourselves on the night of the annual Freshmen pajama parade, when four hundred Freshmen participated in the biggest parade in the history of the University.

After struggling through a month of college life without any organization, we were called together by the officers of the Men's Union to choose our leaders for the coming year. Wallace Johnson was elected President: James Berry, Vice President: Clayton Kline, Treasurer, and Pauline Jones, Secretary.

The first social function held under the auspices of the class of 1930 was the annual Freshman dance. It was not only well attended by the Freshmen, but also by a large delegation of upper classmen.

We are proud of the men who represented us in the different branches of athletics. A great number of promising candidates responded to the call for Freshman football, basketball, track, and baseball.

With its reputation firmly established, the class of 1930 will enter the second year in order to gain new laurels for its most worthy head.

The class is endeavoring to follow the trail of those who have preceded it and to set an example for those weary toilers who are to come after it.

HE plan or athletic organization at Ohio University is somewhat different than that found in many of our universities. We have a Department of Physical Education, and athletics are considered as a part of the whole program. This means that the administrative officers at Ohio University recognize the educational values to be found in a sound athletic program. They realize that athletics are not entirely separate from the educational program of the institution, but a part of the whole scheme of education. Athletics under this sort of a program mean much more in the life and training of the individual. With this general idea in mind, athletics are becoming much more valuable at Ohio University.

The past year has been the best athletic year this institution has ever experienced. The men representing the athletic teams were the finest of men and always ready to sacrifice for the sake of the institution.

This year has proved to all that the formation of the Buckeye Athletic association was right and that through it we will have better and fairer competition. Through the formation of this association, the spirit between the several institutions has been much improved, and we are looking forward to even better relationships between the Buckeye schools.

Last year our football team was the best team that Ohio University has put on the gridiron during the last five years.

The basketball team started slowly but finished the season strong. Next year should be a big year for basketball, with several veterans back and a strong Freshman team.

The baseball team won a large percent of their games last season and at times looked like "big leaguers." It was necessary for the coach to build around two or three veterans and he succeeded in developing a fine team.

We are making rapid strides in track and this year will see the best efforts in this sport ever shown by Ohio University. A good track team is always an indication of a well balanced athletic program.

Our wrestling team came across again this year and won much glory. They not only won the Buckeye Athletic Association tournament at Athens, but also won all but two of its dual meets, winning from the strong West Virginia team and losing only to Ohio State and Michigan State.

The tennis team finished another very successful season. They won practically all of their matches and with the wrestling team. Finished high.

Intramular athletics enjoyed another very successful year, a larger percent of students competing this year than ever before.

Again, I wish to congratulate the student managers of the different sports. No institution can boast of a finer group of managers than we have at Ohio University. Their work this year has been highly efficient and they deserve much credit for this most successful athletic year.

Coaches

Don C. Peden, a forceful and courageous young man, has been responsible for the making of Ohio's football teams. He is the same Peden that skirted the ends, dashed off tackle, passed and kicked for Illinois during the seasons of 1920-1921. By the unanimous choice of sport writers and coaches he was made All Western half-back. Walter Eckersall has the following to say about Peden in the Chicago. Tribune: "Don Peden, of Illinois, is placed on the All Western hecause he is one of the greatest backs ever to be in the game. He is fast, clever, can pass, kick, and gets under way in faultless fashion. On top of all, he can clean the path as an interferer for his team mates." Peden's last year in college brought the highest award achievable because of his character, personality, and exceptional playing ability. He was made captain of the 1921 Illini.

Besides being Head Football Coach, he also acts in the capacity of Baseball Coach and instructor in several coaching classes. Ohio University is very fortunate in having a man like Don Peden.

B. T. Grover Head Coach in Basketball, and Assistant Coach in Football, has the enviable reputation of being an authority on basketball throughout the country. He attended Ohio University and while there was basketball captain, all conterence forward, and a player of wide reputation. Popular as a player he has since become more popular as a coach

Upon his graduation from Ohio he was made Athletic Director at Harvey. Illinois. The following year he was called back to his Alma Mater as assistant basketball coach. He was made Head Basketball Coach in 1922, and has enjoyed no little success since that time. He has developed such players as Wright, Herron. O'Daffer, King, and Burkett.

Besides being a coach Grover acts in the capacities of Instructor in Physical Education coaching and officiating. "Butch" is a man among men.

W. H Herbert one of the best football players ever to be turned out at Ohio University, is serving his Alma Mater as Head Coach in Track Freshman Football Coach, and Instructor in Physical Education and Track Coaching.

While attending Ohio University he was a member of the football three years, playing guard his last year and winning the honor of being chosen as All-Ohio guard. He also was a member of the track squad three years, starring as a dash man.

Upon graduation in 1924, he immediately went to Marysville. Missouri: in the capacity of coach. He remained here one year, and established enviable records with his football and basketball teams. The following year he was called back to his Alma Mater, whom he is now serving in the above named capacities.

Bill" is a fine young man of sterling character, with all the necessary qualities that are needed in the athletic business of today, and he is doing his utmost to instill these qualities in the younger athletes of the University of today.

RIO GRANDE

HE opening game of the season found Rio Grande at Ohio. The Peden boys were pessimistic about this game, because in the past the Red Men had thrown a scare into Ohio's team. However, the game was hardly under way before Ohio's offense began to function. The Rio Grande boys were completely outclassed in every department of the game, being defeated by the score of 40 to nothing. This was the best showing that the Ohio team had made in the opening game in years past

AKRON

ISPI.AYING a wonderful defense, the Peden machine went down to defeat at the hands of Akron by the score of 3 to 0. A drop kick from the thirty-five yard line by Johnson, quarterback of the Zippers, spelled defeat for Ohio. The Pedenites held the Akron boys for four downs on the one yard line, proving that their defense was superb. Captain Wise bore the brunt of Ohio's defense, while Paisley substituting for Dando, proved the tower of strength when Akron tried to score a touchdown from the one yard line.

DENISON

HE following week Ohio met Denison on Ohio's field. Although they had defeated the Big Red the previous season by a big score, they were not overconfident. Both teams displayed wonderful defensive of ability, although neither of the teams had the punch to put over a touchdown. Two drop kicks from difficult angles, one coming from the first quarter and one in the last quarter, from the educated toe of Sweeney, was Ohio's margin of victory. The final score was 6 to 0 in favor of Ohio.

CINCINNATI

INCINNATI was the guest of Ohio at Athens for the annual Home Coming game. Unleashing a powerful offense, the Peden machine ran rough shod over the Bear Cats, winning by a score of 38 to 7. Incidentally, this broke a jinx that had been trailing Ohio in her Home Coming games in the past. One of the features of the game was the interception of a Cincinnati pass on the fifty yard line by Jarvie, who raced the remaining distance of the field for a touchdown.

Sayles, Kennard, and Doran were the cogs in the Pedenite offense, the former making long gains and Doran furnishing the punch for four touchdowns. The blocking of Kennard was very outstanding. The score of this game was the largest to be registered by any B. A. A. team during the entire season.

Playing in a sea of mud. Ohio Wesleyan and Ohio University, time honored rivals, battled to a scoreless tie. Both teams were very evenly matched, although the Bobcats had no chance to display their powerful offense. Had it been a dry day, there is no doubt in the minds of the spectators but what Ohio would have scored early in the game. Blyth and Longley, selected on the All-B. A. A. second team, were the mainstays of Ohio's defense.

OHIO NORTHERN

UFFERING from the strain in preparation for the crucial battle with Ohio Wesleyan, the Bobcats played a listless game with the Polar Bears. The offense of the Pedenites could not get started. They scored a touchdown in the first quarter, but failed in their attempt for point after touchdown. In the third quarter. Sweeney registered a field goal from the eighteen yard line. Then the Polar Bears came back with a strong forward pass attack, scored a touchdown and the extra point. Shortly after, the game ended with Ohio on the long end of a 9 to 7 score.

ITH the opening of school, Coach "Bill" Herbert issued the call for candidates for the Freshman football team. This resulted in 70 men reporting for work. Men from all sections of the State as well as several neighboring States, were included in this group.

Soon after the season opened, the squad was divided into several teams and each team was given various phases of each opponent's plays week by week. After these plays were perfected, the various teams were pitted against the Varsity nightly, both on offense and defense. This type of work was very valuable in the development of the Varsity for their weekly games.

Some of the outstanding men this year were Forrest. Brammer, Maibauer, Rollin. Kraft. Iafalice. Abbruzzino. Tracey. Berry. Young, and Seedhouse.

One of the most important things accomplished by the Frosh Team this year was their learning of the fundamentals of football under the supervision of Herbert. Heretofore, this phase of Freshmen football had been neglected. As a result of this work,

this year's Freshmen team should prove a fine nucleus around which to build the Varsity of 1927.

Night after night he led the Freshmen against the Varsity and gave a good account of himself.

Bill' is eligible for three years of Varsity competition.

TITH the loss of three veterans from last year's team Ohio's hopes were not the brightest for a successful season. However Coach Grover found a combination that looked good in the pre-season games.

Wittenberg was the first B. A. A. foe to be met. and in a close game they were victors. The next game was played against the Ohio Conference Champions. In a torrid game that went into an overtime period Muskingum won. Ohio Weslevan handed Ohio their second B. A. A. loss a few days later.

At this time two of the members of the team were found ineligible, and Ohio was forced to play the remainder of the season with only one veteran in the lineup.

Cincinnati and Miami were both met the following week and the games resulted in victories for our foes. The second game with Muskingum was another overtime battle with the champs again on top.

Denison won the game played at Granville, and Ohio chalked up their first B. A. A victory four days later when Miami was defeated. The Washington Birthday game played with Ohio Weslevan was won by the Bishops

Ohio got revenge on Cincinnati by giving them a drubbing, and proved to the fans that they were again in form. Marietta dropped their second game to the Bobcats a few days later. The season was then closed with a pleasing victory over Wittenberg.

A summary of the season shows Ohio with a lower percentage than in former years, but too much cannot be expected from a green team. Eve of the last seven games were victories, and next year's team should win many games.

After several weeks of work, the squad was divided into two groups. An A squad and a B squad were organized and a system of progression used. When anyone on the B squad showed enough ability, he was moved up to the A squad. This system proved to be very satisfactory, as it furnished an incentive for the men.

Some of the outstanding members of the squad were Kline. Campbell. Timms. and Arnold at forwards: Briggs and Brammer at center: Trace, Blaney, and Thomas at guards. Others to do good work throughout the season were Weiss, Swackhamer, Johnson, Forrest, Gaskill and Maibauer.

HIO opened their baseball season with only four members of the 1925 squad, by defeating Miami at Ohio Field, by the score of 7 to 6. The batting power of the men was surprising, they gathered thirteen hits from the Miami moundsmen. Sweeney did the hurling honors of Ohio, along with Gamber, the two allowing Miami ten hits. Both teams played ragged ball in the field, but hit fiercely at times. In the seventh inning, after trailing Miami for six innings, the Ohio steam roller started to function, resulting in a lead of one run, when the inning closed. Miami staged a late rally in the ninth

inning, but it was too late. Theisen, Fuller, Wise. Robeson and Sweeney formed the bulwark of attack for Ohio, each gaining two hits apiece. If first games are any predictions. Ohio should come through with many wins this year.

The following week Ohio, with a badly crippled team, journeyed to Oxford and Cincinnati, respectively. The first game was played with Miami and Ohio lost by the score of 15 to 1. The offerings of Christy and Wakely were pounded to all corners of the lot, while Ohio was unable to hit at all. Beazell being the only man on the Ohio team that was credited with a safe blow.

The next day Cincinnati was met at Cincinnati and Cincinnati went down to defeat by the score of 8 to 5. Sweeney, burling for Ohio, was very effective with all the Bear Cats, with the exception of Allen, who was credited with four hits out of as many times to the plate. Beazell again led the Ohio attack this day, being credited with three hits.

Ohio met Denison in the next game at Ohio Field and plaved miserable ball, both in the field and at bat, being defeated by the score of 9 to 2. Three Ohio hurlers were ineffective, the Big Red garnishing eleven safeties from them, while Ohio was getting six. Beazell, Fuller, Wise, Sweeney and Over were the only ones to connect safely. It was just an off day for the Bobeats, but it proved disastrous in the end.

Marietta aided Ohio in continuing her losing streak by crushing Ohio 11 to 1. With both Sweeney and Gamber on the shelf. Coach Peden was compelled to reach into center field and take Fuller for mound duty. He proved to be very ineffective, while Eggenberger, for Marietta, baffled the Bobcats with his offerings, allowing them only five bits.

The next game was with our old rivals. Ohio Desleyan, at Delaware. The game resolved itself into a pitcher's battle, between Sweeney and Kalbfus, the latter obtaining the decision by the score of 5 to 3, as a result of two terrific home run drives by Pratt. Wesleyan shortstop.

RHODES

Sweeney gave a very good mound exhibition, but the Ohio batsmen were unable to cope with the offerings of the Wesleyan pitcher. Theisen, Beazell and Bayless being the only ones to hit safely.

The tables were turned in the next game, and Ohio at last got into the win column. They defeated Wittenberg at Springfield, by the score of 7 to 2. Fuller, pitching for Ohio, was very effective, while the bats of Wise. Theisen, Beazell, Eweeney, Bayless, Fuller, McNabb and Rhodes provided the margin for victory. This caused the outlook for Ohio to look a little brighter.

Ohio lost the next game to Ohio Wesleyan in a slug fest at Ohio Field, by the score of 12 to 8. Sweeney did the hurling for Ohio, but was not very effective in the pinches, the Methodists getting fourteen hits from his offerings, coupled with poor support. As for the offense, Ohio garnished ten hits but not at the right time. The Bobcats that were able to hit the offerings of Swartz were Fuller, Wise, Over, Sweeney, Bayless, Robeson, Shields and Rhodes.

In the best game of the season, Sweeney turned the Marietta team back in big fashion, on Ohio Field, to the tune of 3 to 2. Both teams gathered seven hits, the Bobcats having the fortune of collecting their hits at an opportune time. The work of the entire team was way above par, and McNabb at second base, stood out as the man in the Ohio infield, who bore the brunt of the defensive work. His powerful arm whipped the ball over to first base on a number of close plays. On the offense, the same three men who had been bearing the brunt of the work this year, came through again. Captain Theisen, Beazell and Sweeney each earned two hits, while McNabb collected the other bingle. The regular manner in which Sweeney mowed the Marietta nine down, after the Pioneers had given the Ohio nine a terrific lacing on the Marietta home field a couple of weeks ago, was pleasing.

WAKELY JOHNSON CHRISTY

Cincinnati was met in the next game and Ohio lost to them by the close score of 6 to 5. Fuller did the hurling for the Bobcats, but received very poor support. Ohio out-hit Cincinnati, the Bobcats getting 11 hits while the Bearcats were getting 6 hits. Errors were very profound in the Ohio line-up and after leading Cincinnati for eight innings, fell by the wayside in the ninth inning and lost the ball game, because of their inability to hit.

In the next game Ohio overcame a five run lead, and defeated Wittenberg in a loosely played game by the score of 8 to 6. Fuller and Johnson did the mound duty for Ohio during the early part of the game, but Sweeney was forced to relieve the latter in the fifth inning. Wise played a good game for Ohio, scoring three runs and having a good day in the field. Rhodes played a very creditable game behind the bat, being a tower of strength on the offense.

The last game of the season resulted in a twelve inning battle with Denison. Ohio losing out in the twelfth by the score of 11 to 10. The hitting of both teams was very strong. Denison getting theirs when they needed them. The hitting of Theisen. Beazell. Sweeney and Wise was very creditable. Theison getting a two-base hit. Beazell a three-sacker and Wise a home run. This game was a very exciting one, and although it did not result in a win for Ohio, it was a great game with which to close the season.

ROBERTS

Season Review

RIFFITH made his first appearance on the wrestling squad this year in the 115 pound class. He gave a good account of himself. winning 21 points and losing 8. He won the Buckeye Championship. He should make a good showing next year because he is a faithful trainer.

Stocker was out for the featherweight class but failed to find himself. He is apt to make a good fight for a regular place next year. his last.

Glass, a new man in the 125 pound class, made a wonderful record, winning all his matches up to the Buckeye Tournament. He scored a fall in all bouts except one in which he gained a decision over his man. He lost by decision to this same man during the tournament principally because of weakness due to a spell of sickness. Fall over State, W. Va., and Michigan.

McCurdy represented O-U. in the 125 pound class at Miami, getting his man for a decision. He has wrestling ability but failed to train consistent enough to win a regular berth on the squad.

Breed finished his last year with a record of 21 points won and 13 points lost. He won all his Buckeye meets by a fall, and the B. A. A. championship in the 135 pound class. Freddy is to be commended on his clean training which enabled him to make such a good showing.

GRIFFITH

GLASS

MCCURDY

Shafer won all his meets except those with West Virginia and Michigan. He made a good showing in the tournament, winning for himself the championship in the 145 pound class. "Shaf" has the "old fight" which makes him a reliable man much admired by the steadily increasing numbers of wrestling fans.

Captain Brubaker was the high point man of the team, with a record of 29 points won and three lost. He received an injury at the outset of his Ohio State match, but fought out the contest in a dazed condition to lost the decision. He ended his college wrestling career by retaining the welterweight championship. "Bru" has been a clean, well conditioned athlete throughout his college life, and well merits the admiration given him both at home and abroad.

Duncan ended his career here by appearance in both the heavyweight and light heavyweight classes, winning the championship in the latter. Duncan has never been thrown, his record being 21 points won and one decision lost. Although this was Duncan's only year on the squad, his football tactics showed themselves, and he delivered in the pinches. Begola battled in both the 175 pound and heavyweight classes. Although light for a heavyweight, his great strength and fighting spirit gained for him a regular place on the squad and later, the B. A. A. heavyweight title. Begola has shown that he has the ability, and should be one of the leading scorers with this year's experience to his credit.

Roberts showed considerable improvement in his work this year. He has the natural ability and aggressiveness necessary for a good wrestler and will stage a game fight for the regular 135 pound position next year. He is a "sticker" and a clean fighter.

Track Squad

Third Row-Tilton, Meyers, Marlowe, Patterson, Pyle, Mosher, Silcox Second Row-Herbert, Coach; Zimmer, Asst. Coach; Baumgartner, Schall, Rees, Carrick, Bell, Weaver, Freshwater, Riley, Ohm, Mgr. First Row Tervan, Cowan, Wiegand, Percelle, Hudson, Macklin, Griffith, Tipton

TRACK

N the past, track and field athletics at Ohio University have been considered as a minor sport. However, with the return of "Bill" Herbert to his Alma Mater, in the capacity of track coach, these events have been revived. The squad of thirty-five men has been working out daily under the supervision of Coach Herbert and, at present, the prospects are very bright. With Hudson and Percelle of last year's team, along with the men from this year's Cross Country team as a nucleus, the squad is fast rounding into shape.

Outdoor meets for this spring include competition with the following schools: Ohio Relays. Denison. Cincinnati. Wittenberg. Muskingum. Kenyon. the Buckeye Conference Meet. and the Ohio Conference Meet.

Ohio's track teams in the future should be of the best, because of the ever-increasing number of men that turn out for the team each spring.

Cross Country Squad

Zimmer, Cowh; Percelle, Schall, Mosher, Wiegand, Weaver

CROSS COUNTRY

ROSS COUNTRY running as an intercollegiate sport, was added to the school program for the first time this year. It was therefore an inexperienced squad made up mostly of Sophomores that carried Ohio's colors in the two dual meets and the conference meet. Percelle, veteran two miler, was the only candidate with running experience.

The team made a very creditable showing running the meet with Denison and losing to Wesleyan in a triangular meet with that institution and Ohio State. The team placed fourth in the Conference meet, finishing behind Ohio Wesleyan, Miami, and Cincinnati. Schaal was the outstanding man of the team, but Percelle. Weaver, Mosher and Weigand were to be depended upon, all showing great improvement as the season progressed.

A number of promising Freshmen worked out daily, and a great deal of credit can be given them in helping to round the Varsity into shape. Shaw, a prep scholar star from Pinkerton Academy, with three years experience, proved to be invaluable. With the addition of this Freshmen material to the veteran squad of this year, much can be expected next year.

Tennis Squad

Standing-Bird, Coach; Martin, Lutz, McConihay Sitting-Walton, Newhard

TENNIS

HE game of tennis is a sport which should be boosted by all athletic departments. It is one of the few games which carries over into later life. More students should avail themselves of the opportunity to take up this game. It will afford much enjoyment to them later on and the experience and recreation make it a worth while sport.

Varsity tennis was first inaugurated at Ohio University two years ago. Last year the team composed of McConihay, Black, Walton, Newhardt, made a very creditable showing. Only two matches were lost last season, one to Wesleyan and the other to Denison. Considering the newness of the sport and the fact that old time tennis players were men, the boys did remarkably well. At the present time the squad is working out daily in preparation for the matches this spring. If pre-season dope means anything, Ohio's tennis team should have another successful season.

Intramurals

HE past year has been one of the most successful seasons ever enjoyed by the intramural group. The Physical Education Department has attempted to attain the record of having a place for every man student in some phase of intramural sports.

This is the second year that a student manager has had to be appointed to handle the many duties of this department. Dean Kittle, under the direction of Director Grover, has efficiently taken over this duty and managed it in a businesslike manner. He has been ably assisted by undergraduate student managers.

One of the chief benefits derived from the sports is that it enables the coaches of Varsity teams to "look over" prospective teams. This gets men into Varsity athletics, that otherwise would be lost to the teams. Another benefit of importance is that members of the student body officiate all games, thus giving these men confidence in themselves.

We are all hoping that the coming years may be as successful in Intramurals as this past one has been.

HE Women's Athletic Association exists for the purpose of co-operating with the Women's Department of Physical Education in fostering true sportsmanship, in furthering interest in athletics by providing wholesome recreational activities and in encouraging a democratic spirit among the girls on the campus.

It is the purpose of this organization to offer to every girl in college some kind of physical activity in which she may participate and in so doing learn the values which come from intimate association with girls on the athletic field, gymnasium floor, and the open road and field.

To become an active member it is necessary for a girl to win 100 points by actual participation in activities offered by the organization. To maintain membership 100 points per year must be carned.

There are four regular meetings of the association, these meetings taking the form of business and social meetings. Besides these a carnival in the fall for the entire student body, a dance in the second semester, etc., are a few of the outside events sponsored by the association.

Varsity "O" Club

Millar, Pomeroy, Fosselius, Kaiser, Post, Carson, Ickes.

wo years ago at the girls' all-star basketball game, three girls were awarded white sweaters with green "O's" on them. These three girls were the first women on the campus to wear a Varsity "O." Thus began the present "O" club, which is a part of the W. A. A.

To be eligible to wear an "O" a girl must win 1000 points by participating in the various athletics on the campus. The coveted letter is then awarded on a basis of scholastic standing, and sportsmanlike and democratic attitude on the campus. Up to the present time 14 "O's" have been awarded and it is hoped that there will be several more before the end of the year. There are now upon the campus seven girls wearing "O" sweaters.

Hockey Squad

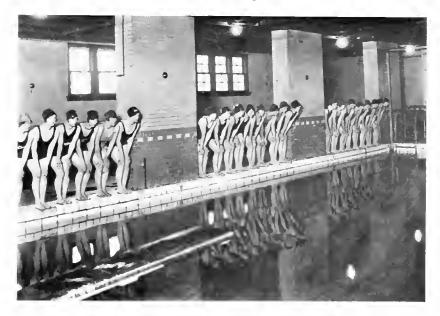

Fourth Row- Fouts, Edmunds, Black, Ickes, Taylor, Walsh, Cooper,
Third Row-Farmer, Chick, Green, Michener, Richards, Warren, Faigen, Millar, Smith
Second Row-Dorr, Steele, Wells, Faubion, Shaw, Beadle, Thomas, Bruce, Elliot,
First Row-Boring, Post, Wernert, Kurtz, Fletcher, Arnold, Harrington, Kaiser, Pomeroy.

OCKEY this year was very successful in that the girls showed much spirit and co-operation. The squads, consisting of girls from different classes, were divided into four color teams, and a tournament was played. To each girl who had been out to six practices and had played in the tournament, one hundred points were given, which went toward her much desired "O" and W. A. A.

This is the first year that a hockey field has been marked out for the girls. Much enthusiasm was shown for hockey when the girls played their games in mud and ice. Considering the spirit and the success of this year, we expect hockey to become one of the leading sports for the women of this campus.

Swimming

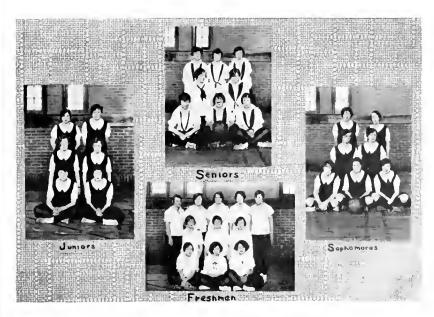

S WIMMING again held much interest for the girls who were out for the team. Through the efforts of Miss Smith the girls accomplished much.

Two meets were held, the first an inter-organization meet on March fifth. The annual inter-class meet took place on Saturday. March 12.

In the crawl Mary Kircher and Sally Shoemaker excelled, both in speed and form. Ruth Thomas established a record in the racing back stroke. Virginia Riddle and Mary Miles made the breast stroke interesting. In diving, Mary Kircher, Sally Shoemaker and Ruby Tinsman established records that will boost swimming even higher as a sport next year and have acquired a skill worthy of much praise.

Basketball Squads

HF enrollment in basketball was exceptionally large, more than one hundred and fifty women signing up for the sport. Each class had a first and second squad and tournaments were played between the squads.

A new feature was added this season, that of inter-organization games. The girls showed much interest and enthusiasm and a group team with Angie Boring as captain, won the tournament.

Volley Ball Squad

URING the winter months at the gym. volley ball was a topic of much importance. Practices were held every afternoon at 2:30 and 3:30 representing girls from all the different classes. Much enthusiasm and interest were shown at practices and during the latter part of the season games were played off. The 2:30 team played the 3:30 team and the team winning had much to be proud of. Miss Rogers was in charge of practices and the coaching of the teams.

W. A. A. Minstrel Show

AY, Mistah Intalocketah—Sh?—The Minstrel Show of the W. A. A. girls had begun. There sat the interlocutor with his end men—Half Pint. Pole Vault. Charley 'Hoss. and Head Stand. And then there were the "O" women sittin' on the front row. A wee bit o' melody and music charmed the audience and the end men sent them into gales of laughter with their jokes and dancing. Yes. it was a success, for—

I'd rather see ah minstral show Than eny othah show ah knows.

W. A. A. Carnival

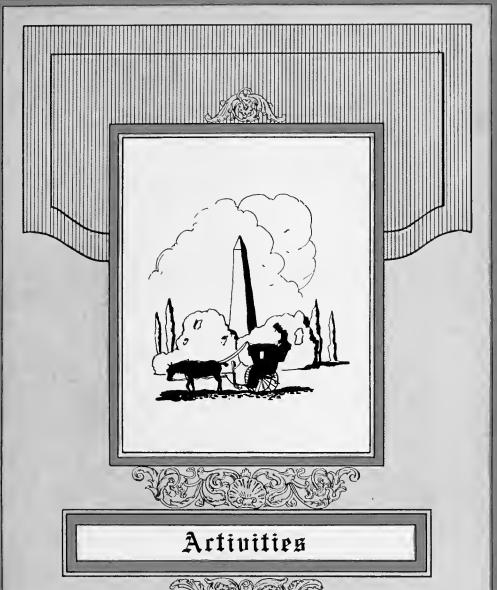

o: Ho: This way to the crystal gazer! See the Dempsey-Tunney fight. Cider and doughnuts! Yes, the women's gym was again ringing with the cries of the carnival clowns. It was the night before the homecoming game and the peppy strains of music from the dance orchestra foretold victory for Ohio.

"See Romeo and Juliet," cried the clowns, but there was more to be seen down stairs. What ho! Yes it was a real carnival with a gondola on the lake and gaily decorated booths on the shore.

"Spin the wheel and get a box of candy." came the cry from the Phi booth. Twenty-one campus organizations entered the contest with a booth. The Theta Upsilon sailors won the contest by conducting unsuspecting travelers around the world. The award was based on originality and proceeds.

From everywhere came the cries of sellers. Yes, it was exciting, for it was the carnival of W. A. A.

HEN President Bryan came to Ohio University in 1921, he conceived the idea of effecting an organization that would include all the men of the University. With this purpose in mind he met with a representative group of Ohio men to consider the forming of such an organization. At this meeting a committee was selected to make a study of the situation at Ohio University and an investigation of similar organizations in other universities. After this was accomplished a constitution and by-laws were drawn up and submitted to the men of the University: they accepted the work of the committee, and thus created the Men's Union of Ohio University.

Soon afterwards a three-story building opposite the North Entrance of the Campus was purchased to be used as the home of the organization, and became known as the Men's Union Building. The facilities of the building include a reading room, ball room, pool room. "Torch" room band and orchestra room, and the offices of the campus publications, the officers of the Union, who are elected by popular vote of the men students to supervise its functions and facilities occupy apartments on the third floor. Four boards of control are also elected by popular vote to aid the officers in carrying out its activities.

Every male student who is properly matriculated at Ohio University automatically becomes a member of the Union, and is urged to take an active part in all of its meetings and activities and to promote its purposes. These are as follows: To provide the machinery of organization for efficient student government, to promote the interests of the men of the student body so as to make this campus an attractive place for men students, and to unite all groups into a solid unified student group with a GREATER Ohio University Spirit.

HIS board was organized as an integral part of the Men's Union for the purpose of enforcement and administration of student government regulations. Ch'ef among these are the organization of the Sophomore Vigilance Committee, which enforces the Freshman rules: the selection, purchasing, and distribution of Freshman caps: the conducting of the election of Freshmen class officers: and the controlling of any trouble arising between the two lower classes.

The personnel of the board consists of five Seniors and three Juniors with the Vice President of the Union acting as chairman ex officio. This year Vice President Wayne Covert, who graduated at mid-year, was succeeded by Oscar F. Schneider, next highest in election, to complete Covert's unexpired term.

HE Young Women's Christian Association catries a very consistent program from year to year, gradually increasing its scope of service, and widening its field of endeavor.

The work of the Association extends to girls the opportunity to express themselves in many ways, but primarily in voluntary social service work. Girls are sent every week into eight mining communities, carrying out a uniform Sunday-school program in each community.

The \$2100 budget on which the Association works is raised by a share of one-half the profits of the Skit Show with the Women's League, a \$600 donation from the Community Chest, a campus-wide membership campaign, an honorary membership campaign, voluntary donations from townspeople and alumni, and the finance committee of the Association earns about \$600 from the sale of candy.

T is the yearly task of the Athena to portray and reserve the traditions of Ohio University, and the worthwhile interests of each particular school year. Thus with the coming of summer there also comes another volume of memories to join those that have appeared before it, and so keep unbroken the record of events that comprise the history of this great institution.

Successful co-operation by every member of the staff has enabled the 1927 Athena to clearly illustrate the past year of activity at Ohio University. Each picture, be it group or individual, represents some particular phase of undergraduate interest.

A few departments appearing in former Athenas have been omitted, and new sections have been added so that this volume can make the year of 1927 distinct in the history of Ohio.

At this time the editor wishes to express his appreciation to the staff members that have helped make this book possible.

HI Green Goat is the humor magazine of Ohio University. For the first time in the history of the publication has the editor used the magazine for anything other than entertaining purposes. Every time an article is reprinted from it the name of the university must accompany it. Consequently, every effort was made to have the work of a caliber that would merit reprinting. In this way the Goat has been quite successful in advertising Ohio.

The covers, all of which have been done by staft artists, have been exceptionally unique and clever. The make-up of the magazine has brought praise to the editor from several outside sources. College Humor sending a special complimentary letter on the quality of the third number.

Quite pointed editorials dealing with various campus problems in a mild inoffensive manner were appreciated by all who read them.

The past two years have been unquestionably the most successful in the magazine's fluctuating history. Selling of the Green Goat was stimulated by presenting the sorority having the highest group sales, and the girl having the highest individual sales, for the year, with suitable rewards.

Keys were awarded to the more faithful members of the staff.

OR a year and a half the Green and White has been issued twice a week as the official student publication of Ohio University. Prior to this time it was printed but once a week. At the present time it ranks as one of the finest college or university newspapers in the State.

The object of the paper is to print as much of campus news as is obtainable. The editorials reflect the views of the campus, as well as those of the editor on various student problems.

Twice a year a special sport edition is printed which summarizes the past season of athletic activities. Occasionally other specials are issued to meet and take care of other interests.

The first university newspaper appeared back in the nineties and was known as the "Panorama" Since then there have been several other papers published at irregular intervals. In 1911 the Green and White appeared as an official campus publication under university authorization.

This year Ohio University had the honor of holding the second annual convention of Ohio college newspaper editors. Thirteen schools sent representatives. The meetings held in the Green and White offices tried to establish greater co-operation among the newspapers, and thus, indirectly, the schools themselves.

Board of Control

McCracken, Blythe, Agerter, Schneider

JOHN MCCRACKEN, Chairman

T the close of the present school year the Green and White Board of Control will be an organization of the past. Up to this time the interpretation of the constitution of the Green and White was placed in its hands. The members of the Board of Control were chosen by popular election. Only upper classmen were considered.

To prevent campus politics interfering with efficiency of the various publications the Campus Āffairs Committee has taken over the duties of the Board as well as the supervision of the other publications.

The Board appointed the Business Manager and Circulation Manager and chose the Editor from the results of a competitive examination. They also advised on financial matters.

The Campus Affairs Committee, besides undertaking the above, will also appoint the editors and business managers of the Athena, the Green Goat, and the "O" Book.

HIS year's Glee Club has been acclaimed as the strongest and best balanced club yet. Their work has always been of a high order, but this year there seemed to be a spontaneity, a spiritual quality to their work that is seldom found in a student group. In the recent glee club contest this was recognized by two of the judges, Mr. John Finley Williamson, of Dayton, and Robert W. Roberts, of Columbus, who remarked about their singing of "What the Chimney Sang," as being the best college glee club singing they had ever heard, and the outstanding number of the contest.

The club has appeared in several cities of Ohio. besides Athens, and presented a superior home concert program. Few men will be lost through graduation, which bespeaks a most favorable organization for next year.

HE Girls' Glee Club of Ohio University has long been one of her outstanding musical organizations. Membership is secured through competitive trials in which quality of voice and ability to read are of first importance. In this way a club is built up which is able to do work of a very high order. The club has been a member of the State Inter-Collegiate Association since its organization in 1924, winning the cup offered at the contest that year.

Each year the club gives a home concert and for the past two years a joint concert with the Men's Club at Gallipolis. A part of the 1927 program was repeated at the Majestic Theater. The girls also broadcasted from WAIU, Columbus, on March 8, 1927, with excellent results.

For the past three years the club has been under the direction of Mrs. Margaret Benedict, of the Voice Department of the School of Music.

The Ohio University Band, under the capable leadership of Director John W. Gill. has made an enviable record for itself this year. The organization has played at all of the home football games and made the trips with the team to Ohio Weslevan and Wittenberg.

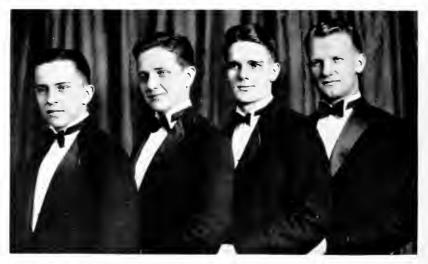

University Orchestra

HIS year's Orchestra has kept pace with the steady improvement shown each year by all of the musical organizations of the University. Beginning the season under the baton of Professor Karl Andrist, progress on the new program for the year was evidenced early in the first semester. The first public appearance of the Otchestra was at Chapel on December 15th, where they made a most favorable impression. Under the leadership of Professor Ingerham, who succeeded Mr. Andrist, a continued improvement has been manifested which was borne out by the remarkable reception the Orchestra received in Ironton, Ohio, and at their home concert, given April 27th.

With Ohio University's enrollment well past the two thousand mark it is not outside the expectations of the authorities of the School of Music to foresee an organization next year with a membership of one hundred in the Orchestra. Trials for admission will be held next September at the opening of the first semester.

HE Varsity Male Quartette this year is popularly and wisely conceded to be the best one that Ohio University has ever had. Built around two men of last year's quartette, it has credibly carried the name and fame of a grand old school throughout Ohio and adjacent states. A Kiwanis or Rotary Banquet in the Hocking Valley was not complete unless these entertainers were included on the program, and many were the pleasant undergraduate moments recalled in the minds of our Alumni, when these "Songsters" helped organize and perpetuate Alumni chapters.

Competition for this much-sought activity was close and plentiful this year and only after careful and studied eliminations were the best four chosen. David K. Todd was the accompanist for the quartette the entire year.

HE Cosmopolitan Club at Ohio University was first organized during the school year of 1924-25. At that time two or three faculty members who were interested in the study of international, social, and racial problems met with a few of the students who had been active in the solution of social problems to consider the possibility of organizing a group at Ohio University to discuss social and international problems. Samuel Hoy, a Chinese student, was elected first president of the club. At the time of the organization of the club there were several Chinese and Japanese students in the University.

One of the fundamental aims of the Cosmopolitan Club at Ohio University is to promote international good will by considering the problems that give rise to misunderstanding among nations. The motto of the club is. "That Brotherhood Might Prevail."

HE English Club is the oldest student-faculty organization on the campus of Ohio University. The club was organized with the purpose of discovering and developing the literary talent on the campus and thus aid in producing future famous authors and novelists such as Gene Stratton Porter, Marv Roberts Rinehart, Robert Frost, and others. At every meeting an original composition is read and discussed by the members. Every student member and nearly every faculty member is required to read at least one poem, short story, or play during the year.

The meetings are held the first Tuesday of each month at the home of Dean and Mrs. Chubb, on South Court street. The last meeting of the year is known as Guest Night; on this occasion every member is permitted to bring a friend.

The goal of the club is to give Ohio University an American literary preeminence comparable to the British literary pre-eminence which Cambridge University has maintained for centuries.

HE Kindergarten Club was organized in Ohio University on October 28, 1910. The original membership was eleven, and during the years following its inception this membership has increased until at present it has reached one hundred. Membership in this organization depends only upon the enrollment of the student in the Kindergarten-Primary Course.

The purpose of the club is to foster an intimate social contact among its members and to bring into consideration the more important and interesting educational movements of the day.

The monthly meetings of the club are held on the second Tuesday of each month These meetings are varied in form, sometimes being educational and sometimes being purely social. It has been the custom to have various members of the faculty, both within and without the department address the club on various subjects. Very often the members are given an opportunity to voice their opinions or to ask any question which may be troubling to them. This type of an organization is very essential to every department. It brings the members closer together and gives them a much broader view of the work in which they are specializing and a better understanding of that work.

HE Melting Pot is the departmental club of the Department of Geography and Geology. It was organized in 1923 as a part of the general plan of building up the Department to a standard comparable to that of other universities.

The club has functioned admirably and always has an active membership of at least 50. There are no qualifications for membership except an honest interest in the subject of geography and an obligation to attend all regular meetings. Students are dropped from membership if absent twice, consecutively.

The principal aim of the club, as its name suggests, is to promote a more sympathetic understanding of the geographic problems of other peoples.

IIE Science Club, formerly called "The Scientific Society." is one of the oldest departmental organizations on the campus. Organized in October, 1902, its membership was first composed of the Faculty members and three student members from the departments of Biology, Chemistry, Mathematics, Physics. Psychology, and Paidology. Later the Departments of Civil Engineering, Civic Biology and Botany, and Agriculture were included in the membership. At present, the club consists of about fifty members.

Meetings of the club are held monthly. Each program usually consists of a major and a minor paper, the former being given by the head of one department and the latter by an instructor or an assistant of another department. In addition to the two papers, current events in the scientific world are presented by three student members.

For recommendation to membership in the Science Club a student must show unusual ability and keen interest in the particular work of the department from which he is elected.

The club will celebrate, at an early meeting next fall, its twenty-fifth anniversary,

N the autumn of 1923 the Social Science Club was organized to further the interest common to those who are working in the social sciences, to discuss current social problems, and to cultivate good fellowship among the members. The membership includes faculty and students in the departments of Ethics. Economics. Sociology, European History, and American History. The student members are elected on the basis of scholarship in one or more of the social sciences. There are at present twenty-seven members. The meetings of the club are held on the third Wednesday evening of each month during the college year.

The work of the club this year has included studies of current, social, political, and industrial interests in the United States and Latin America. Some attention has been given also to the professional interests in relation to the social sciences.

Rose, Wm. G. Silvus, O. C. Stout, James L. Stump, R. G. Webber, and Fred D. Wheaton. Up to the year 1918, the society enjoyed many years of successful meetings during which much interest was shown and much was accomplished. Activities were suspended from 1918 to 1922. During the fall of 1922, the organization began active work due to the added interest in the field of industrial chemistry.

Members in the society are taken from the student body, the members being those majoring in chemistry. The faculty members comprise the advisory board.

The purpose of the organization is to stimulate interest and to encourage research in chemistry among those students whose chief interest lies in this field of science. The attainment of purpose comes through the monthly discussions of some of the greater problems in chemistry together with reports given upon present day topics. The current topics are discussed by the members of the organization, but less in detail than the greater problems.

HE Women's Physical Education Club is organized for the purpose of developing a spirit of unity among members of the club and the Department of Physical Education. Moreover, we aim to consider important problems in the professional field of Physical Education, keep abreast of the current phases of the work and enjoy a social time at some of the monthly meetings. This organization has been in existence for tour years, and with the growth and development in the Department of Physical Education and interest in general it has grown also.

The membership includes all majors and minors in Physical Education and the club extends to any girl on the Ohio University Campus, who has a keen interest in the general subject of Physical Education, the invitation of membership, with the payment of dues and without the power to vote.

Among the outstanding activities of the organization are the helping with games and stories at the Annual Xmas Party for the "Poor Kiddies" the sponsoring of the annual departmental banquet, spring breakfast hike, and week-end house party, and the securing of out-of-town talent for special meetings such as we have had this year-Miss Dorothy Sumption, of the Ohio State University Physical Education Faculty, for specific work in Danish Gymnastics, and Miss Elizabeth Burchenal, of New York City, Chairman of the American Folk Dance Society for special training in Folk Dancing.

With the changing of majors and minors each semester the personnel of the club changes. The above is the correct membership list for the second semester, 1926-1927,

Men's Inter-Fraternity Council

Third Row-Robeson, Lowe, Percelle, Hecht, McKelvey Second Row-Hudson, Smiley, Beckwith, Davis, Longley First Row-McCracken, Edmund, Blythe, Jones, Constein, Wise

HE Men's Pan-Hellenic Council consists of two representatives from each of the social Greek letter fraternities. The purpose of the organization is to promote a spirit of co-operation and friendliness among the fraternities and to devise proper legislation in all matters pertaining to inter-fraternity activity.

The fraternities are represented by voting members, but a new organization must be accepted as a non-voting member for a period of one year before becoming eligible for voting membership.

Officers are chosen each year from the voting members only.

Mr. O'Neil represented Ohio University at the National Undergraduate Inter-Fraternity Council held at New York the past year.

ORCH was established as an honorary upper classmin's fraternity in May, 1913, through the efforts of men feeling the need of such a society. The idea was accepted by Prof Mackinnon at once and the growth and strength of the organization are largely attributed to his sponsoring it.

Men are elected to Torch on "Tap Day" whose qualifications for election show a high mark in scholastic standing, athletic ability, campus leadership, and person-

ality. Two of these qualifications are necessary for election.

RESSET was organized in 1913 for the purpose of emphasizing the attributes and ideals of true womanhood as shown in campus life. To be chosen for membership, a girl must have a scholastic standing of two points, campus activity in a broad field, and the attitude of a true citizen toward campus

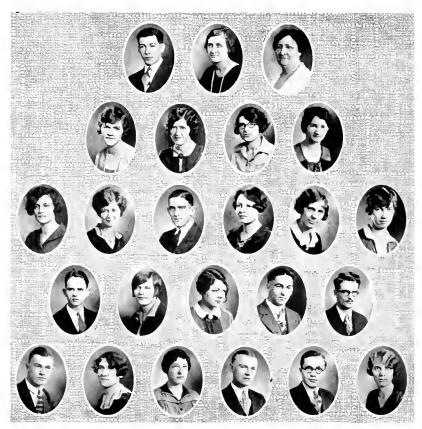

life in general

While Cresset, as an organization, does not primarily carry on campus activities, it does hold itself in readiness to promote anything that contributes to the best life of the University. This year Cresset has entertained the women of the various classes and the faculty at a reception and several informal teas.

Alumni Gateway

ET us enter the revered grounds of Ohio University and in so doing, let us notice the gateway through which we are passing. It is not merely a stately arch through which we go dutifully to classes and through which we return bappily to other pleasures. Neither is it a structure built to hold the inscription. So Enter Dailu That Thou May Grow in Knowledge, Wisdom, and in Love, which Freshmen read aloud in passing through. But it is a symbol of welcome to old Grads. It is a constant reminder of others who have had the privileges we are now having. It is a beautiful gift to us from those who have gone before. It is the Alumni Gateway.

And now we are within the boundaries of our Alma Mater, walking beneath great trees, which have looked down on many long-forgotten scenes—old customs which came and went with the changing of the times. It is hard to believe that our school has calmly watched the advance of civilization, to us, past us, and on into the west. That it has lain, peacefully busy, while wars were fought and peaces made, and while our country grew from a new, weak republic to the most powerful nation in the world. Surely there are many forgotten secrets which this old campus could tell if it would

Shall we rest here for a while and think of some of the traditions which have been handed down through the years?

Records show that in the good old days chapel was held seven days a week and twice a day. If whisperings were heard during prayers expulsion was not too great a punishment for the offender.

The President was frequently called upon to address the students upon the 'protanity and indecency of whispering in time of worship and other disorderly behavior." He was also requested to forbid the throwing of water, askes, or anything else from the windows of the college buildings. This was all in 1837 when military discipline was the thing, and if the young men left the college without permission his absence was made permanent.

They were strict in some ways and gloriously broad-minded in others. When the boys drank beer, they were let off with a reprimand, the faculty thinking, no doubt, that they obtained it from godly men of good standing and were not so bad after all. But if they whispered in chapel, and were unashamed, they were sent home in disgrace.

In 1837 it was the custom of the professors to meet at five o'clock in the mornings to study. French,

On February 22, 1851 elaborate preparations were made for the observance of the Day of Prayer for Colleges—the first record of its kind in connection with the University. The following is taken from the records. "At the suggestion of the President it was voted that morning prayers be attended at 5:45, and that recitations be beld immediately after."

But those are very old customs and have not quite withstood the test of time.

SENIOR PARADE

The traditions which we still hold today are of a somewhat later adaption, although their origin comes down to us from very old New England customs.

One of these old traditions is the parade of the Seniors during the last of the school year. Members of the faculty and the Senior class, wearing caps and gowns, lead the student body beneath the McGuffy Elms and up the main walk to the Chapel. Our founders would be more than gratified, could they see this imposing procession. Even the Freshmen have an air of dignity as they march, two by two, at the end of the line. This dignity is sometimes lost, however, not only by the Freshmen but by a few of the Sophomores in their attempt to find seats for the exercise which follows.

At each succeeding Convocation until Commencement the Seniors appear in caps and gowns and occupy a reserved section.

TAP DAY

Tap Dav is usually Senior Dav also. At this time selections are made for Torch. As every one knows, this is the men's honorary organization on the campus and it is the ambition of every man to be tapped. Not only must you be efficient in your studies and prominent in campus activities, but you must have an outstanding personality. If you are tapped for Torch you may be sure that you are receiving the highest appreciation for your effort extended toward your University.

The procedure used in tapping is beautiful and mysterious. No one knows, not even the candidate, who is going to be chosen until the tapper marches down the aisle in Assembly and taps the fortunate youth.

The girls also have something to work for. Their honorary organization is Cresset, and their requirements for membership are very similar to those of Torch.

Both organizations are commendable and have done much to raise the standards of Ohio University.

TUG-OF-WAR

Another event which is looked forward to with glee by some and dread by others is the annual tug-of-war between the Freshmen and the Sophomores.

Many people assemble to witness this struggle which is the result of a year's accumulation of enmities between the two classes. The beauty of the State Hospital grounds is lost for the members of one of the classes as they feel the icy water creep up around their waists. Defeat is bitter at any time, but especially so in cold water and at the hands of your worst rivals. But, on the other hand, victory is glorious and it's all a lot of fun.

We are wondering who will win this year.

SKIT SHOW

Color, laughter, dances, songs, and happiness'. That describes our Skit Show. A riot of fun for every one. This is one of the few things that is enjoyed by both the spectators and the performers.

The various women's organizations on the campus prepare and give the skits. They are almost without exception, original and clever. The proceeds go to the League Loan Fund.

The fourteenth big annual Skit Show was given March 25 and 26 at the Majestic Theater. This year we had an additional performance earlier in the season. The Sorority Pledges gave The Prep Follies, which was a great success. We hope it will become a tradition along with the Annual Skit Show.

If you have never attended one of these events do not miss the next one for it will be a college memory which you will always cherish.

FRESHMAN INSIGNIA

If you are a Freshman, you will not have to be told what this insignia means, for upper classmen will have impressed you with both its meaning and its necessity. It means primarily, that you are a Freshman. Its bright green shouts that to all the world. There is a green and white cap, with an especially long beak, which may be worn, but which is not exactly the sort of thing recommended in What The Young Man Shall Wear. The more fastidious of our first-year men prefer the little green wool cap, and some of them are even rather good-looking in them.

The girls wear a green arm band with a white O in the center. Most of them feel very proud of it. So when they have lived through their Freshman year and find that they must give up their childish things, they have it transferred to their bathing suits, or put in their Memory Books to serve as a pleasant memory of early college days.

FOUNDER'S DAY

One hundred and twenty-two years is a good many, but through them all we have never forgotten our Founders, nor can we forget them. This was wild, Indian country when our first college brothers attended Ohio University. What a privilege that was—to be the first men to attend the first college west of the Alleghenies. It was our Founders who made that privilege theirs and have given it to all of us who have followed. What could be more fitting than that we should officially recognize Founder's Day. This we are doing with exercises suitable for the occasion. The early life and history of the college, and its aim are usually brought out at these celebrations.
